CLARE RURAL DISTRICT

in the

ADMINISTRATIVE COUNTY OF WEST SUFFOLK

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

for the year

1967

A N N U A L    R E P O R T

of the

Medical Officer of Health for the Rural District  
of Clare, in the County of West Suffolk, for the  
year ended 31st December, 1967.

---

Public Health Department,

Severals House,

Newmarket.

July, 1968.

To the Chairman and Members of  
the Clare Rural District Council

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present my Annual Report for the year 1967.

The Birth Rate for the third year in succession was higher than  
that for the country as a whole.

The Death Rate was less than that for England and Wales.

The Infant Mortality Rate was appreciably less than that for  
England and Wales.

There were ten cases of Food Poisoning during the year and these were  
the occasion of a considerable effort on the part of your Public Health  
staff in the tracing of sources of infection and contacts.

A minor outbreak of measles occurred but this was of a mild nature.

I wish to express my appreciation of the help afforded me in  
compiling the Report by the Clerk of the Council and the Chief Public  
Health Inspector.

My thanks are also offered to the Chairman and all members of the  
Public Health Committee for their help and encouragement throughout the  
year.

I have the honour to be,

Your obedient Servant,

A. FARNILL MORGAN

Medical Officer of Health

THE FOLLOWING INFORMATION IS SUPPLIED BY YOUR SENIOR PUBLIC HEALTH INSPECTOR

A. WATER SUPPLIES

Mains water is supplied to your area by the West Suffolk Water Board and has been satisfactory in quantity and quality.

There are still a number of dwellings being supplied from standpipes, but the percentage is relatively small and gradually being reduced by Cottages being improved and by those falling into dereliction.

B. SEWERAGE AND SEWAGE DISPOSAL

Sewerage and Sewage disposal schemes are in operation for the following Villages :-

Clare and Cavendish - (with disposal works near to Clare)

Kedington and Great Wratting - (with disposal works near to Kedington)

Hundon, Stoke-by-Clare, Withersfield.

The following Village schemes were put into full operation during the year :-

Wickhambrook, Wixoe,  
Lidgate and Ousden - (with works near to Lidgate)  
Great and Little Bradley and Great and Little Thurlow  
- (with works at Little Thurlow)

The Council reconsidered their proposals for enlarging the Clare disposal works to accommodate sewage from an estimate population of 6,000 - This scheme was given Ministry approval but Chilton and Poslingford were excluded from the possibility of early commencement because of the general economic situation.

An amended proposal with an ultimate disposal works capacity for 4,500 population was given Ministry approval this year. It is hoped to commence the work in 1968, meanwhile your present disposal works are working at maximum capacity and a reduced standard of effluent can be anticipated whilst new housing development is proceeding.

The Council are reminded of the unsatisfactory drainage arrangements and nuisances from sewage existing at Poslingford where I feel main drainage is urgent.

Other villages in your area where I suggest sewage disposal schemes are very necessary and urgent in the interests of the health of those living therein are Cowlinge, Barnardiston, the Bury road area of Wickhambrook and Stansfield.

Other Villages in your area not having main drainage present nuisance problems from foul ditches, property owners are discouraged from Cottage improvements, new development is retarded and I suggest constant review of these Village problems might well reveal an extreme urgency for main drainage.

### C. PUBLIC CLEANSING AND REFUSE DISPOSAL

A weekly kerbside collection of dustbins came into operation during the year.

Collection of waste paper and trade refuse in Clare continues.

About 90 tons of refuse is disposed of each week into your three quarries at Kedington, Denston and Lidgate (the latter being acquired during the year). The method of tipping is that known as "uncontrolled" and no doubt the Council will proceed with their investigations into other methods of treatment and disposal which should eliminate many complaints from the public as to nuisances, foul odours, flies, vermin and unsightly appearances within those areas surrounding these dumps.

Septic tanks on Council house estates are cleaned out by Contract and during the year 241 tanks of private dwellings were cleared at a reduced rate of 10/- per load of 750 gallons of sewage.

### COMMON LODGING HOUSES

There are none in the area.

### CARAVANS

There are a number of individual caravans in the area controlled by an annual consent under the Town and Country Planning Act and every effort is made to see that essential services are available to safe-guard the health of the occupants.

No licences are in being under the Caravan Sites and Control of Development Act, 1960.

### F. PET SHOPS

There are none in the area.

### ATMOSPHERIC POLLUTION

No formal action was necessary under The Clean Air Act, 1956. Discussions regarding a dense smoke emission from a laundry chimney have resulted in oil firing being resorted to and work should be completed next year.

### NOISE ABATEMENT

There was no call for formal action under The Noise Abatement Act, 1960, but several complaints have been investigated and remedied.

### OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

The number of premises registered at the end of the year and which received a general inspection was :-

Offices	8

	26
	<hr/>

Contraventions noted were in respect of Temperature 2, Sanitary Conveniences 1, Washing facilities 1, First Aid 2. These are being rectified.

### ANIMAL BOARDING ESTABLISHMENTS ACT 1963

Qualifications in the Act appear to exempt one or two establishments in the area where such animals are known to be kept, and consequently there are no licensed establishments.

### PETROLEUM ACTS AND REGULATIONS

There are 79 licensed petrol storage installations in the area.

G. INSPECTION AND SUPERVISION OF FOOD

Food Premises in the area

There are 91 food premises in the area, the majority being general grocers, hotels and public houses.

Inspections reveal a generally acceptable hygienic standard including mobile food vans which are increasing in number.
